DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 5/11/2004 have been fully considered but they are not persuasive.

With regard to the applicant's argument that "there is no teaching or suggestion in Katayama to rotate one imaging system along a vertical axis with respect to the fixed vertical axis of the other imaging system" (page 8, lines 14-16). The examiner respectfully disagrees and as is admitted by the applicant, Katayama teaches focusing on an arbitrary point by a vertical deviation INDEPENDENTLY for each of the imaging systems (page 8, lines 11-13). Since Katayama focuses on an arbitrary point by a vertical deviation (rotating vertically) INDEPENDENTLY for each of the imaging system, therefore, at at least one occasion, Katayama only rotates vertically one imaging system or rotates independently from the other system and therefore, Katayama meets the limitation as amended and claimed.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by Katayama as set forth in the previous office action (paper #3).

Allowable Subject Matter

Art Unit: 2613

4. Claim 14 is allowed.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nhon T Diep whose telephone number is 703-305-4648. The examiner can normally be reached on m-f.
